

The college engages in women's empowerment.

☐ The Students' Welfare Cell provides support and counseling on academic and psychological matters. They are encouraged to complete their education and become self-reliant.

☐ Besides this, the students regularly seek personal advice on academic matters from the teachers of their departments. The teachers frequently remain present after class hours to provide such counseling. Such intra-departmental counseling has proved to be extremely effective in improving the academic performance as well as the emotional stability of the students.

☐ The teachers also lend their maximum support to students who have to support their families.

Support services. Provide academic advising, career counseling, and mentorship programs.

☐ The college has a healthy mix of students from all communities and backgrounds that learn to co-exist and work together in harmony. This promotes a sense of national integrity.

☐ The faculty members are provided with free WiFi internet connectivity and a rich library to pursue their academic and research activities and programmes.

☐ Transparency in admissions and in internal assessment at P.G. level

☐ We have Career & Counselling Cell for students to guide them in academic and vocational counselling.

To enhance faith and friendliness among the staff members.

☐ Teachers are regularly contributing research papers to national and international journals.

☐ Participation of teachers in seminars/conferences has been increased.

☐ Recently three teachers have completed their Ph.D. degree .

☐ PG/UG students have been encouraged to participate in college-level seminars.

☐ CCTV cameras have been installed at various places in the college for centralized surveillance that helps in sorting disciplinary issues.

☐ Environment enhancement cell to make the environment of the college premises and its surrounding locality eco-friendly.
